

Practice Nurse (EEN)

Ungooroo Aboriginal Corporation is looking for an experienced Endorsed Enrolled Nurse to join our GP and Health Services team. As a Practice Nurse (EEN), you will perform appropriate clinical duties including triage, immunisations and chronic disease management as well as assist our doctors with clinical procedures.

This is a part-time role, 2-3 days per week

Although this is not an identified position, we encourage Aboriginal people to apply.

About the role

- Provide culturally appropriate health care
- Explain procedures to patients and provide support and reassurance
- Perform clinical duties within required level of clinical competency, according to best available evidence
- Provide immunisations and other injections, wound management and chronic disease management
- Assist with triage, data management and diagnostic services and assist doctors with clinical procedures
- Maintain clinical documentation
- Conduct preventative/screening procedures
- Assist with patient education and community health promotion activities
- Ensure sterilisation and maintenance of clinical equipment
- Understanding of and compliance with OHS requirements

About you

- Demonstrated patient-focused approach with genuine empathy and interest in patient needs
- Excellent interpersonal and communication skills with patients, families and communities as well as other services and health professionals
- Maintain absolute confidentiality around patient and practice information
- Demonstrate a knowledge of, and compliance with, all relevant legislation and common law obligations affecting nursing and patient care
- Be well-presented and friendly always represent the practice in a confident and positive manner
- Ability to work cooperatively, independently, and to prioritise and organise.

Qualifications and experience

- Appropriate tertiary qualification and registration
- Professional indemnity cover
- Minimum of one years nursing experience, preferably in a community-based role.
- Demonstrated understanding of the needs of general practice and interest in community-based nursing including patient education and health promotion.
- Knowledge of current immunisation schedules, Diabetes management, asthma management, enhanced primary care items, infection control, CPR and emergency resuscitation techniques, equipment & drugs.
- Competence in the use of relevant equipment and software
- Demonstrated understanding of the local health system and referral pathways.
- Applicants will be subject to a Working with Children Check and a Criminal History Check
