

GENERAL PRACTITIONER POSITION

3 days / week

THE LOCATION

Situated in Singleton, Ungoороо Aboriginal Corporation is just 45 minutes' drive from Newcastle and is close to all major centres in the Hunter region via the Hunter Expressway. It's a rapidly growing location, with new housing developments in the area.

Singleton is a dynamic regional centre with fantastic educational, sporting and recreational facilities and has private and government schooling to year 12.

With rolling vineyards, colonial heritage and outdoor adventure, Singleton is a delightful riverside town in the Hunter Valley wine region. In addition to quality schools, sporting and recreational facilities, you can enjoy wine tasting, heritage walks and wonderful international and local concerts.

THE PRACTICE

Ungoороо GP & Health Services is an Aboriginal Community Controlled Health Organisation (ACCHO) general practice that is committed to promoting wellness and chronic disease prevention. We are nationally accredited through AGPAL and endorsed through AH&MRC and NACCHO.

We currently have 2 registered nurses and qualified immunisers, a 3rd year nursing student and we provide our own pathology. We have been endorsed as an Aboriginal Community Controlled Health Organisation (ACCHO) since 2016 and just completed a national accreditation as a General Practice through AGPAL for 2024.

We are accredited with training bodies such as RACGP and Accrum and provide clinical supervised training to registrars.

We are in the Singleton Centre and offer 10 consultation rooms for GPs and clinical staff. We are located directly opposite ALTO Radiology which provides bulk-billing radiology and has an MRI.

We strive to provide a holistic approach to health care, utilising our partnership with the Rural Doctors Network to provide allied health services such as Physiotherapy, Psychology, Speech, Diabetes workshops, Audiology, Optometry and Mental Health workers.

Ungoороо has also partnered with the Primary Health Network to provide the Integrated Team Care (ITC) program which supports Aboriginal patients living with complex chronic diseases. This program is supported and coordinated by a Registered Nurse and Outreach worker.

THE OPPORTUNITY

Due to increased community demand and expanding our services, we are seeking several part-time fellowed GPs to work in our Singleton practice 2 to 3 days per week and are flexible with preferred days. We will also consider General Registration GPs who are working towards fellowship. GPs who have supervisory qualifications are also strongly encouraged to apply.

BENEFITS OF WORKING IN AN ABORIGINAL MEDICAL SERVICE

- Experience working within Aboriginal health and community
- Gain experience in a holistic approach to healthcare
- Experience in treating chronic disease management
